## NATIONAL CORVETTE MUSEUM NEWS

### NATIONAL CORVETTE MUSEUM—AN OVERVIEW

Bowling Green, KY—The National Corvette Museum opened in 1994 as an educational tribute to

America's sports car. The Museum is located in Bowling Green, Kentucky, known worldwide as the home of the Corvette. Every Corvette in the world since 1981 is assembled at the General Motors Bowling Green Assembly Plant located just ¼ mile from the National Corvette Museum. Both the Museum and Assembly Plant offer tours to the public.

The exterior of the National Corvette Museum is noted for its award-winning architectural design. The sweeping lines of the building were inspired by the car it honors. Departing totally from the traditional rectangular museum concept, the Corvette showcase is located on an attractively landscaped 60-acre campus. The most prominent exterior feature is a large circular car salon encased by a striking yellow conical roof. High above soars a red 12-story spire. Known as the "Skydome," this section of the Museum has become a landmark for the Bowling Green area.

The interior of the 68,000-square-foot building uses curved walls, geometric design and full scale diorama displays to tell the story of the Corvette's past, present and future. More than 70 Corvettes from every era since 1953 are displayed, with each display changing periodically. While some are beautifully preserved production models, many are one-of-a-kind concept vehicles rarely if ever before seen by the public. The National Corvette Museum also features informative films, rare documents and other materials aimed at educating the public about this historical automobile.

Upon entering the National Corvette Museum, visitors are greeted by a special car from the Museum's collection displayed on a turntable in a glass-walled room. There is also a new Corvette that visitors may "try on for size," sitting in the driver's seat for a memorable snapshot. Accessible through the front lobby is the Corvette Store, a 3,000-square-foot retail store offering a wide variety of Corvette, Chevrolet and other automotive items. Shoppers find unique apparel, collectibles and gift items in a friendly atmosphere. The Corvette Store is not your average museum gift shop!

Upon beginning the tour, the first stop is the 200-seat Chevrolet Theater to comfortably enjoy a film detailing the Corvette's history. This big-screen presentation gets the visitor's "engine revved" and ready to enjoy an exciting tour. The Chevrolet Theater also plays host to educational speakers and other special programs from time to time.

The first exhibits bring visitors to an area located in Nostalgia Alley where a series of realistic scenes mirror the Corvette's early history. Stroll down Main Street and visit the mid-century barbershop and the old service station, complete with authentic gas pumps, air tower and garage. A live mechanic is often on-duty to greet visitors. Vintage Corvettes line the street along with early advertisements and other memorabilia from the car's early years.

Next stop is the historic Route 66, often called "America's Main Street." This tribute to the highway includes the lifelike figures of George Maharis and Martin Milner, stars of the Route 66-television show that ran from 1960 until 1964. They stand next to a beautiful Corvette like the one driven on the show as well as a vintage motorcycle.

The final stop on Main Street is the Chevrolet Dealership Showroom featuring classic Corvettes that could pass for brand new. See Sting Rays, Sharks and other classics as a lifelike salesperson attempts to close a deal. Who doesn't remember visiting the showroom and dreaming of owning one of these beauties!

Two exhibits pay tribute to men and women who build this legendary American sports car. Hear the stories of those who helped build the Corvette in its early days told firsthand in the UAW display. Another full-scale diorama recreates a portion of the old Corvette assembly line in St Louis, where the Corvette was produced from late 1953 until 1981.

Next, it's time to talk horsepower as visitors explore Corvette's racing history in the Performance Area. This circular room is 80 feet in diameter with its outer wall covered by a giant panoramic mural of famous Corvette racecars. The inner wall is a timeline of notable achievements in engineering and performance. Several well-known racers from the late 1950's to the ultra-high performance racecars of today are arranged on a slanted racetrack. Interact and experience the excitement of the racing pits and participate as a member of the Corvette team's pit crew at our "Pit Crew Challenge" exhibit. Change tires, fuel up and take the challenge as

part of this new and exciting exhibit. The area of the Museum also features cutaways of high horsepower engines and powertrains giving visitors a close-up glimpse at the “heart of the beast.” The Design and Development shop demonstrates how Corvettes go from the drawing board to working prototypes to actual production models. With input from the General Motors Technical Center in Michigan, the scenes show the lifelike figures of actual designers and engineers surrounded by outrageous sketches, prototypes and clay models. There is also a cutaway chassis from the Corvette’s safety features. Both the young and the young at heart will dream of a career behind the scenes at Corvette after seeing this exhibit.

Watch new Corvette purchases come to life in our In House Delivery Area, while owners take delivery of their new Corvette at the Museum. When an order for a new Corvette is placed, customers can opt to choose the R8C Option that designates the Corvette purchase as a “Museum Delivery.” Trained staff takes the new Corvette buyer on a tour of the Museum and an on-hands introduction to their new Corvette. Several deliveries are done each day, and give visitors the opportunity to see first-hand what Corvette excitement is all about.

The largest display area is the famous Skydome portion of the Museum, 140 feet in diameter with a nearly 100-foot high glass ceiling. Cars in this area, as in every part of the Museum, are constantly being changed and rotated. The Skydome features production vehicles on-loan from private owners as well as cars made famous by magazines and auto shows the world over. There are also several display cases showing valuable Corvette collectibles.

The 240-foot long Atrium leads visitors back to the front lobby. This area houses an ever-changing display of specially themed exhibits. There is also an extensive collection of Corvette whiskey decanters and promotional models ending with an art gallery and “Wall of Fame” picturing famous Corvette owners and their beloved cars.

Lifelike figures from the Corvette’s past and present are located throughout the National Corvette Museum and animate the many exhibits. An internationally renowned sculptor created the figures using the actual people depicted who agreed to be “cast in life.” These cast-in-life figures introduce visitors to the famed people who designed, engineered or raced the car or otherwise helped make it famous.

A multimedia Educational Resource Center provides a vast array of knowledge for inquisitive researchers. A staff of Corvette professionals is-on-hand to offer technical advice and answers to questions. Upon completion, the Center will house the Corvette Library and Archives, the most comprehensive source of Corvette-related information for enthusiasts all over the world.

This quick trip through the National Corvette Museum only begins to skim the highlights of this amazing tribute to America’s sports car. The excitement, color and adventure that are Corvette must be seen firsthand to be fully appreciated. A tour of the Museum, coupled with a visit to the one-and-only Corvette Assembly Plant, and you’ll know why Bowling Green, Kentucky is known to millions as Corvette City, USA.
